Line number

1. Do you enjoy watching wild animals? They may actually enjoy watching you, too!
2. If you sit still, like a rock, the birds may fly closer, seeing that you are not a threat.
3. Deer may approach you out of curiosity. There are a lot of wild animal “don’ts” but if
4. you are observing right, you’ll have an enjoyable and safe experience, and so will the
5. wild life.
6. The first rule is to avoid disturbing the animals. If a bird appears upset by you, you
7. are probably too close to its nest and may be affecting the survival of its eggs or young.
8. Curiosity may draw you to a bird nest, but beware of the consequences to the
9. inhabitants of the nest. Eggs that are left uncovered will cool quickly, killing
10. the embryos.
11. Second, don’t feed the animals. Wild animals who get used to being fed forget how
12. to  **fend for**  themselves. Human food is bad for animals. Most importantly, wild animals
13. who lose their fear of humans might bite or attack people if they are teased or denied
14. their favorite human treat. A wild animal who attacks a human usually has to be killed.
15. My last rule is don’t let your dog chase wildlife. This puts great stress on wild
16. animals, and they may use too much energy trying to escape. Besides, your dog might
17. end up being the victim of a bear or a mountain lion. If you should see an obviously
18. injured animal, report it here at the ranger station. Now, I want to wish you all a
19. pleasant experience in the Thompson National Forest.
