I. Կարդալ տեքստը և պատասխանել հարցերին՝ ընտրելով ճիշտ տարբերակը:  
Read the text and answer the questions choosing the right answer.

Line number

1. The Statue of Liberty stands on Liberty Island, near Manhattan in New York. The Statue  
2. of Liberty is not only the tallest statue in America, it is also one of the most recognizable  
3. American symbols. It is huge. From the tip of the torch to the pedestal on which she stands,  
4. she is just over 151 feet tall. If you include the pedestal in your measurement, she stands more  
5. than 305 feet off of the ground. Her waist size is 35 feet and the tablet she holds is 23 feet long.  
6. Though America financed and built the pedestal, the statue itself was a gift from France. In  
7. this way the complete work is a product of both American and French contributions. At one  
8. time America was ruled by the British. The founding fathers of America chose to fight against  
9. Great Britain for the independence of their country. France supported America by providing  
10. money, men and weapons of war. Had it not been for French contributions during the  
11. Revolutionary War, America would not exist in the way that **it** does today; therefore, it is  
12. quite fitting that the Statue of Liberty, which represents freedom, came to being by a joint  
13. American and French effort. On October 28th, 1886, just over one-hundred years after America  
14. **declared** its independence from Great Britain, the Statue of Liberty was completed and  
15. dedicated by its designer, Frédéric Auguste Bartholdi. Not only did Bartholdi **gained** both  
16. French and American approval for the project, he led the French fundraising efforts and  
17. designed the appearance of the statue.  
18. The appearance of the Statue is somewhat derived from Libertas, the Roman goddess of  
19. freedom. The torch represents how liberty enlightens the world. The seven points or rays  
20. coming from the top of the crown represent the sun, the seven seas, the seven continents, and  
21. how liberty enlightens the world.  
22. Though much of the Statue was modeled after depictions of goddesses Bartholdi modeled  
23. the face after his mother. Though Bartholdi was responsible for the external appearance of the  
24. Statue, the internal design was credited to Gustave Eiffel. Though Mr. Eiffel is best known for  
25. his contributions to a tower in Paris, he also engineered the internal structure that holds up the  
26. Statue of Liberty. Eiffel chose to use a flexible structure, so that changes in the temperature and  
27. strong winds from the ocean would not cause the Statue to crack.  
28. While most people appreciate the Statue of Liberty today, during its construction in the  
29. 1870s, many Americans were critical of the project. Some took issue with the fact that Bartholdi  
30. was French. They believed that American monuments should be designed and constructed by  
31. Americans. Others felt that the statue wasn't much of a gift since it required Americans to foot  
32. the bill for the pedestal.
