Նստարանի համարը

Հարգելի՛ դիմորդ

Խորհուրդ ենք տալիս առաջադրանքները կատարել ըստ հերթականության: Ուշադիր կարդացե՛ք յուրաքանչյուր առաջադրանք և պատասխանների առաջարկվող տարբերակները: Եթե Ձեզ չի հաջողվում որևէ առաջադրանքի անմիջապես պատասխանել, ժամանակը խնայելու նպատակով կարող եք այն բաց թողնել և դրան անդրադառնալ ավելի ուշ:

Ձեր առջև դրված թեստ-գրքույկի էջերի դատարկ մասերը Դուք ազատորեն կարող եք օգտագործել սևագրության համար: **Թեստ-գրքույկը չի ստուգվում: Ստուգվում է միայն պատասխանների ձևաթուղթը:**

Առաջադրանքները կատարելուց հետո չմոռանաք պատասխանները ուշադիր և խնամքով նշել պատասխանների ձևաթղթում: Պատասխանների ձևաթղթի ճիշտ լրացումից է կախված Ձեր քննական միավորը:

Ցանկանում ենք հաջողություն:

Line number

1. Modern architecture emerged in the late 19th century as industrialization and technological
2. advancements reshaped societies. Architects began to move away from ornate, decorative
3. styles, focusing instead on functionality, simplicity, and innovation. This new approach aimed
4. to address the demands of growing urban populations and rapidly changing lifestyles. One of
5. the most significant results of this architectural revolution was the rise of skyscrapers.

6. The development of skyscrapers was driven by the challenges of urbanization. As cities
7. expanded, land became scarce and expensive. Architects and engineers found ways to
8. maximize space by building upward instead of outward. The first skyscraper, the Home
9. Insurance Building in Chicago, completed in 1885, introduced a revolutionary steel-frame
10. design. This **innovation** allowed buildings to rise higher while remaining lighter and more
11. stable compared to the traditional load-bearing walls used in earlier buildings.

12. Another invention was the elevator, which made taller buildings feasible by allowing easy
13. access to upper floors. This innovation transformed city skylines and made skyscrapers not
14. only practical but also desirable. Iconic buildings like the Empire State Building and the Burj
15. Khalifa demonstrated the possibilities of modern engineering.

16. The early 20th century saw rapid growth in skyscraper construction, with architects
17. competing to build taller and more impressive structures. These buildings became symbols of
18. economic power and innovation. The Empire State Building, completed in 1931, held the title
19. of the tallest building in the world for nearly 40 years. Today, the Burj Khalifa, completed in
20. 2010, holds the record at 828 meters, highlighting the continuous progress of modern
21. architecture.

22. Modern skyscrapers are not just about height; they also reflect advancements in materials
23. and sustainability. New construction methods, reinforced concrete, and energy-efficient glass
24. help create buildings that are both tall and environmentally responsible. Features like green
25. roofs, solar panels, and renewable energy systems are now standard in many skyscrapers,
26. reducing **their** ecological impact.

27. Despite the benefits, skyscrapers present challenges, particularly in terms of energy
28. consumption and environmental impact during construction. To address these issues, architects
29. and engineers are increasingly focusing on sustainable designs, incorporating rainwater
30. harvesting, natural ventilation, and recycled materials. Skyscrapers are not only marvels of
31. human ingenuity but also **crucial** to shaping the future of cities.
